

Did you know...

... that you can tour our store to learn more about the ways in which we constructed it to be environmentally friendly and energy efficient? We would be glad to show you around and point out the efforts we made to become LEED certified through the U.S. Green Building Council, as well as to continue our organization-wide commitment to "being green." Ask to speak with the store manager for a brief tour, or contact us at (585) 232-1111.
